Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

In reference to the 112 rejection for claim 1, Applicant pointed out that the claim recites the limitation, "so that a whole of any one of said viewable segments and a navigation aid are viewable at the same time." Applicant noted that the Examiner's rejection describes the claim as viewing a first and second segment at the same time, however, the claim actually states "any one". Agreement was reached that the claim does not recite displaying both segments at the same time and the rejection should be withdrawn. It is the Examiner's opinion that Examiner Bilgrami may have inadvertently left the 112 rejection in from a previous rejection, since Examiner Bilgrami did not provide any rebuttal to Applicant's arguments regarding this issue.

In reference to the 103 rejection, Applicant asserted that the teachings of Ndili do not send a navigation aid along with the segment and that the "icon" as described by Ndili with reference to allowing the user to select a next segment corresponds to the icons provided in the Programmer Interface for Developing DMS as described in paragraphs 110-111. It is the Examiner's opinion that the icon described in paragraph 84 does not correspond to the icon for the programmer interface, as this icon is clearly used for viewing of the segments, which is not the same as what the programmer interface is used for. The reference clearly presents this icon "to show the availability of a next segment" (paragraph 84), which clearly must be sent along with the presented segment. Since the segments are sent by the intermediary device, and the icon clearly represents if there is a next segment, this icon must be sent along as part of the segment. Paragraph 84 shows that a determination is made as to whether there is a next segment. Such determination must be made by the intermediary device, which actually creates the segments. If there is a next segment, the intermediary device must notify the user, which is performed through the use of the icon.

Discussion was made regarding making amendments with respect to adding specific menu items to the claimed menu. Examiner was unable to make a determination as to whether such amendments would overcome the prior art used in the rejection, but did point out that it would be beneficial to include functionality behind such menu items, in order to at least overcome the basic user interface that is displayed on any mobile device, as well as overcome normal webpage functionality. Without any functionality, a menu item is simply just a menu item, which is inherent either with respect to a well-known user interface, or even with, for example, links on a web page.

General discussion was made concerning the response to the Non-Final Office Action, mailed out on 7/17/2007. Examiner notified Applicant the he should respond to the rejection in a regular fashion as well as make any references to this interview summary as deemed necessary.

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews

Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not formally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.
